New Business:

There are no in-person help clinics as of now, but requests can be made for remote help on-line or by phone by following directions on the Clubs web-site. Directions can be found under "Member Benefits." Being a member of the club is **still a bargain**, with the available remote help and on-line classes. As a member of the club you also have access to APCUG (Association of PC Users Group) remote conferences via Zoom. The next conference is scheduled for August 15, but you must register with an email address to join in the conference.

There will be an on-line class this month Monday May 18th, 1:00p.m. – 4:00p.m. Joel Ewing will be the host. The class will be "Introduction to GIMP" (GNU Image Manipulation Program). If you sign up tonight by chat with your full name, as a member we will have your information for contact about the class. You can also contact Grace Chang, Education Chairman via email at edu@bvcomputerclub.org, by text 469-733-8395 or phone 479-270-1643. If you are signed up you will get an email the day before the class with the invitation link to Zoom.

The meeting tonight was "What is This Zoom Thing" presented by Joel Ewing.

Respectfully submitted,
Debbie Edmunds, Secretary
