Google Chrome & Google Toolbar

avast! FREE ANTIVIRUS Setup

Complete your avast! software update

You are almost done. Click "Continue" to complete your update.

Main changes in this version:

- NEW Web Shield – redesigned to avoid firewall conflicts and improve general stability and performance, for better threat detection.
- NEW GrimeFighter – a result of our Jumpshot acquisition, our take on PC optimization/tune-up is integrated into avast! 2014 but runs as a standalone app (a paid-for option).
- NEW Safe Price – a new, optional feature in our browser plugin, designed to help you find the best (safest) price when shopping online.
- IMPROVED Firewall (in Internet Security and Premier) – more compatible with other applications such as Java and various VPN services.
- IMPROVED File System Shield – changes in the driver result in faster performance, especially in the copy files and install programs scenarios.

Enhance your browsing experience with Google

- Get Google Chrome, a fast, free web browser
- Search from any site with Google Toolbar for Internet Explorer
- Stable and secure, with automatic updates

- [x] Yes, install Google Chrome as my default browser
- [x] Yes, install Google Toolbar for Internet Explorer

By installing Google Chrome and/or Toolbar, you agree to the Google Licensing Agreement

- Don’t Know -

Windows XP

- **April 8 - last update for the operating system**
- **Microsoft Security Essentials supported until July 2015**
- **Support for some antivirus and malicious software detection programs will be provided for an unspecified period**
- **If you want to continue using XP here are some suggestions**
  - **Uninstall Microsoft Security Essentials**
  - **Use Avast antivirus**
  - **Use Malwarebytes and SuperAntiSpyware**
  - **Don’t use Internet Explorer**

Windows XP

- **Use Google Chrome or Mozilla Firefox**
- **Don't use Outlook Express for email**
- **Use Mozilla Thunderbird or a web based email program (Cox, Gmail, Outlook.com)**
- **Uninstall or disable Java and Adobe Flash**
- **Use Foxit Reader rather than Adobe Reader**
- **Download and run the Windows 7 Upgrade Advisor**
  - **If your computer qualifies, upgrade to Windows 7 for around $90**
- **Purchase a new computer**
  - **Windows 7 computers are available online**
  - **Go to the store and purchase a Windows 8.1 computer**

Windows 8

- **Make sure you have all of the updates from Microsoft**
- **Clean up your computer**
  - **Uninstall programs you don't use**
  - **Run Disk Cleanup**
  - **Remove unnecessary information from your browser**
  - **Update your antivirus program and do a full scan**
  - **Update your malware detection and removal programs and do a full scan**
- **Go to the store and install Windows 8.1 this month**
- **Microsoft is scheduled to release a major update to Windows 8.1 on April 8**
  - **Not necessary to install the update on April 8**

Windows 8.1

- **How do things function and where did things go**
  - **In the corner**
  - **Start button**
  - **Tile on the Start screen**
  - **Disk cleanup**
  - **Desktop icons**
  - **Control panel**
  - **Internet Explorer (the full program)**
  - **Games**
  - **Email program**
  - **Address book / contacts**
  - **Where are my documents and photos / videos**
